1 MR. GRESH: Object to form.

2 THE WITNESS: That's -- yes.

3 That's -- they provide the guidance for OPOs.

4 BY MS. DINKINS:

5 Q And so does UNOS provide oversight in
6 the donation process?

7 A Not in a real-time sense. Unless
8 there are concerns during allocation, we sometimes
9 will reach out to the help desk, but it's not like
10 a -- it's more of a process that, you know,
11 they're available for policy clarification on
12 allocation.

13 Q But UNOS has a help desk that is
14 available if you have any questions about a donor?

15 A Yes, but it's mainly like allocation,
16 because at that point we've verified the ABO based
17 on our policy and UNOS policy, so it's not
18 something we would reach out to them for guidance
19 on an ABO at that point because we follow our
20 policy and their guidance in terms of their
21 policy.

22 Q Does UNOS have access to the donor
23 medical records that are uploaded into DonorNet in
24 real time?

25 A You would have to refer that to UNOS.
